[www.acqua-viva.de](http://www.acqua-viva.de)

Acqua-viva started its journey from the inception of the brand DRIPLESS. With a vision to be a global leader of complete bathing solutions, we value customer expectations that inspire us to develop products that delight the customers. Since its inception, Acquaviva has diversified into various verticals like sanitary ware, wellness products, and faucets. It has been at the forefront of developing European technologies to adapt with Indian Plumbing system in the past 5 decades. As a one window solution, Acquaviva offers high quality products, design consultancy and post customer care. Functional and practical design for Indian market is what makes Acquaviva a leader in this segment.

Exclusive designs, latest technology & customized solution as per customer own requirement. Acquaviva has made its position in the market by creating a satisfied customer base with its innovations.

Our aim is to offer most advanced & safe technologies to provide the best customer appearance.

Acquaviva's products provide a great experience with their high quality and high performance. Our in-house award winning design team is well integrated in its approach and helps to produce worldclass bath solutions. Our state-of-the art manufacturing units are backed by a world class testing lab. That's why Acquaviva bathing solutions conform to the highest quality and regulatory standards. Acquaviva's passion for perfection reflects in the 10 years of warranty it extends on its bath fittings.

In five minutes you will lose yourself, Twenty minutes later you'll put the world all behind you.

# SCIENTIFIC LAYOUT AND EXQUISITE ASSEMBLY TECHNOLOGY

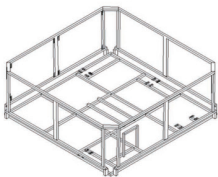

## ● Base

The base is a sealed bottom which install on the spa bottom. With a solid sealed fiberglass forever floor(Or ABS floor), it can stop insects and pests, damp and long-term structural problems. It also allows the spa(hot tub) to be placed anywhere that's level (without any ground preparation) giving total portability.

## METALLIC STRUCTURE

All **Aozamika** spas are equipped with a robust metal structure(#304 stainless steel) that prolongs their service life. Given a rustproof treatment, this metal structure not only supports the weight of a spa over the years but is also able to withstand humid environments and resist the passage of time, even if installed outdoors.

## ● Cabinet

The premium maintenance-free cabinetry for lasting good looks. With a realistic wood-look finish and a modern design, you can have the beauty of wood without the work.

## ● Power line Layout

The Strong and weak electricity are isolated to make sure the SPA is 100% safe. Also all weak electrical elements are installed on the integrated plate for easier maintenance.

## ● Air blower(option)

Spa Air Blower feature revolutionary turbo design for more air output using less power. Silent air motor runs cool and quiet.

As an added feature, all **Aozamika** Spas can be equipped with Therapy Air also come with a fully integrated aromatherapy system that introduces fragrance directly into the spa! The power of natural scent both refreshes and relaxes, complementing a totally therapeutic soak.

## ● Water massage pump

Perfect match with **Aozamika** SPA & swim spas.

Large flow volute design with 2inch inlet and outlet. And 4 locations available for pump housing installation.

Single phase motor installation T1 thermal protector.

Motor adopts high temperature resistant bearing that be long life, reliable and durable.

Liquid absolutely separate with shaft to keep safer and more reliable.

Insulation class F, protection IP\*5.

CE, TUV, SAA, KC, ETL certification approval.

## ● Circulation pump

We choose the high quality, long-life, extremely quiet circulation pump. This pump is rated for continuous duty operation, features an integrated mounting bracket;

# MASSAGE DESIGNED FOR EACH PART OF YOUR BODY

## THERAPY FOR BODY AND SOUL

Ergonomically designed using therapeutic principles, each spa fits the contours of your body providing proper lumbar support and maximizing comfort while the jets melt away stress and muscle strain. When you are in the Spa, many points on your body will experience the wonderful effects of water massage. Extraordinary comfort will come to your entire body.

### Neck Massage

Our exclusive reverse molded neck jet seat features a ledge with specially designed jets that are trained downward putting your neck and shoulders under the jets for the ultimate tension-relieving massage. Simply put, it's Stress Relief for the areas that need it the most.

### Foot massage

Foot massage help soothe muscle and joint pain. This type of massage gives a pleasant, relaxing feeling, and helps you get a good night's sleep.

### Leg massage

The lounge offers a water massage pattern special for leg muscles, which could effective ease soreness, pain or discomfort.

### Direct massage

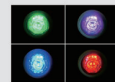

The direct-jets offer high pressure water massage. The water gives a continuous high pressure massage on any part of the body you choose to relieve aches and pains.

### Rotating massage

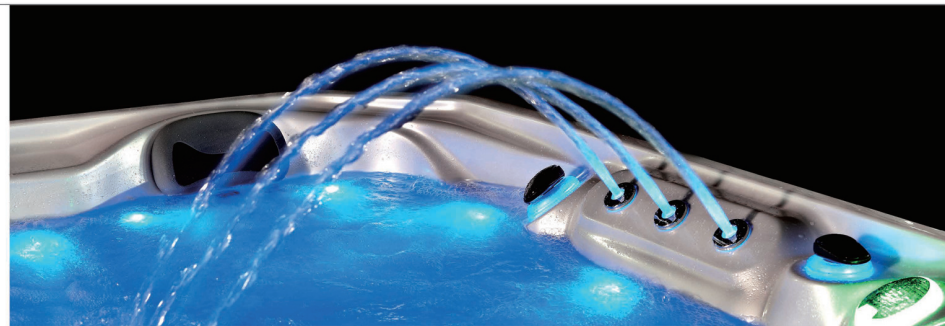

Impact-based water massage. It also gives a lipo active and firming massage of the body in beauty treatments

### water massage jets with LED

We offer optional premium water massage jets with LED. It greatly enhance the chromotherapy. It makes your spa look stunning as the water can be made to appear any colour under the sun.

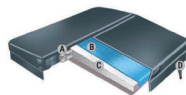

# SUNRANS PROVIDE MULTIPLE HEAT PRESERVATION SOLUTION

The spa equipment is oriented so that any heat generated is recycled, keeping the spa water warm. You'll save money because heat and electricity are conserved.

## Spa Cover

We offer an insulating hard cover to keep the heat in and save on utility bills. Our built-to-last spa covers are constructed with heavy-duty marine grade vinyl, high-density foam and Heavy aluminium alloy frame reinforcement.

### LONGEVITY&INSULATION FEATURES

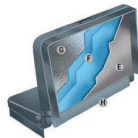

A. Heavy aluminium alloy frame reinforcement- prevents cover sagging

B. 6 Mil ZEROTex moisture barrier-maintains core R-value

C. Premium aquatic-grade insulation-for maximum heat retention and strength

D. Heavy-duty windstraps(no extra charge)-secure cover & prevent heat leakage

E. Multi-ply poly laminate underside(no extra charge)-For superior durability.

F. Double-wrapped core option-For maximum water penetration protection.

G. Energy Reflex thermal mirror option -Locks in radiant heat , pays for itself.

H. Full-length Heat Seal option -Eliminates center hinge heat loss .

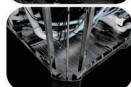

### Skirt Insulation

Reflective foil-backed foam panels keep warm air circulating inside the spa cabinets similar to the insulation in your attic. Without the messy spray foam, you can easily access the internal components of your hot tub.

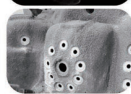

### Pipe insulation

### Base insulation

The base of the spa, (ABS Base Pan), boosts energy efficiency by minimizing contact with the ground preventing moisture wicking.

### Shell insulation

# CHROMO-THERAPY

A SPA can help you unwind,  
relax, and even help you sleep.

The heat expands blood  
vessels, improves circulation,  
and reduces pain.

The addition of hydromassage  
(the massaging pressure from  
the jets)

can relieve muscle tension

and help you de-stress even  
more. Immersing

yourself in a hot tub for even 10  
minutes

has plenty of benefits

Putting Spa Therapy In A Whole New Light

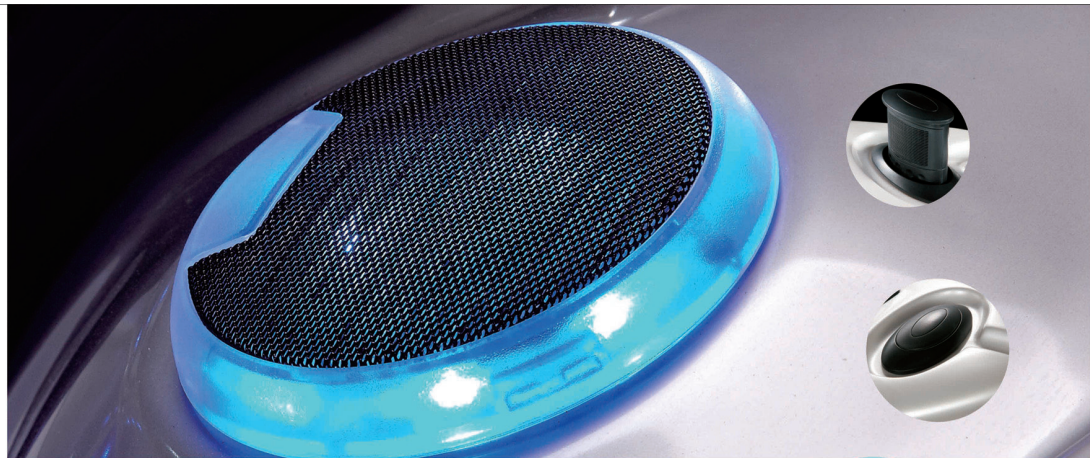

Our optional LED lighting package is an industry first. Brighter and more reliable than fiber optic, LED lighting is now used in vehicle taillights and traffic signals and will last up to 10 years. ACQUAVIVA Spas really shine at night with our underwater lighting. The jets, waterfall, fountains, water regulator and more. At the touch of a button, flood your tub with color and create the perfect atmosphere for a night-time soak.

# AUDIO BLUETOOTH SOUND SYSTEM

All of our portable spas & Swim Spas can be equipped with a full sound system.

SCIENCE & TECHNOLOGY . FASHION . HEALTHY . INTELLIGENCE .

The premium sound system option features Bluetooth streaming audio, two full range marine grade high fidelity speakers a powerful hidden subwoofer and 150W audio amplifier with variable crossover. Just pair your smart phone to stream music wirelessly.

## AIR THERAPY & AROMATHERAPY

Our Air Therapy is designed to enhance your massage experience. Air is circulated through the water giving a gentler massage. As an added feature, all Acquaviva Spas can be equipped with Air Therapy also come with a fully integrated aromatherapy system that introduces fragrance directly into the spa. The power of natural scent both refreshes and relaxes complementing a totally therapeutic soak.

## SELF-CLEANING SYSTEM

We use the best polyester filtration media that money can buy. The result is longer filter life and better water quality. In fact, you can expect up to 30% better filtration than some other brands which may look about the same, but use cheap filter media. An added bonus:

Our sharp pleat folds increase water flow rates while making cartridge cleaning easier.

NOTE: A sanitizer is still required to maintain spa water quality.

### Antimicrobial End Caps & Premium Center Cores

Clarathon's reinforced end caps feature Antimicrobial protection from bacteria and mold. This protection greatly prolongs the life of the cartridge structure and works to inhibit odor and filter clogging, for a healthier filtration system.

# CIRCULATION DISINFECTION SYSTEM

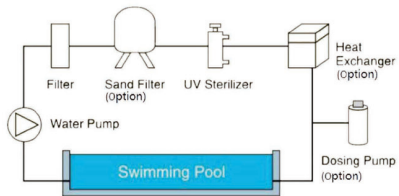

## UV Sterilizer

Ultraviolet disinfection system can sterilize water in an effective and efficient way. Heating and addition of harmful chemicals do not needed. There is no abnormal flavor in the water after treatment. Different from Chlorine, Chlorine Dioxide, Ozone, and other chemical disinfection, ultraviolet disinfection is a physical process.

### The advantages of the ultraviolet:

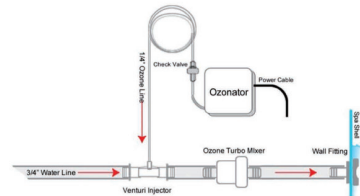

1. Ultraviolet disinfection technology is very effective in destroying bacteria.
2. Efficient disinfection
3. No secondary pollution
4. Low operational costs, simple operation and maintenance, and low costs.

Ozone Premium

## Spa Ozone System

## Ozone Standard

This ozonator is the best product you'll find for cleaning your spa and keeping it fresh day after day. The Spa Ozonator utilizes a Corona Discharge micro-ozone cell which is as close to nature's way of keeping your residential spa clean. Our proven ozone technology effectively removes water impurities and microorganisms, reduced chemical usage and requires less maintenance. Your skin will feel soft, clean and free of harsh chemicals the immediate changes and significant benefits include green technology.

## Ozone Premium

You may update the standard Ozone to Premium Aqua Sun Ozone. Aqua Sun Ozone's Corona Discharge micro-ozone cell provides consistent ozone output with less heat, less energy usage and less nitric acid. There are no cartridges chips or bulbs to replace and it's great for our environment...you're going to love it!

## MicroSilk® Oxygen Therapy

Use MicroSilk® for just 20 minutes a day to make you feel better and look younger.

MicroSilk® is a new patented Hydrotherapy that rejuvenates your body and skin, making you look younger and feel better. The gentle effervescent sensation and silky feel of the water are signs that your body is benefiting from the super saturated water with billions of oxygen-rich micro bubbles. These micro-bubbles, increase oxygen levels in the water and blankets your body, energizing skin cells, stimulating the immune system and collagen production killing bacteria and promoting healing.

Rejuvenate yourself with MicroSilk® – Hydrate your body, . Plump your skin, Reduce fine lines and wrinkles.

Timeless Beauty  
MicroSilk® for spas

## Timeless Beauty

MicroSilk® for spas  
EXCLUSIVELY FROM BALBOA

### Features

#### SMOOTH YOUR SKIN

A young woman with long, wet brown hair is relaxing in a white hot tub. She is wearing a bright pink bikini top and has her right arm raised behind her head. The hot tub is situated on a wooden deck with a railing. In the background, there are lush green trees and a body of water. The overall scene is peaceful and relaxing.

## ***THERAPY FOR BODY AND SOUL***

Ergonomically designed using therapeutic principles, each spa fits the contours of your body providing proper lumbar support and maximizing comfort while the jets melt away stress and muscle strain.  
Submersion in warm water causes blood vessels to dilate, increasing blood flow to body tissues.
