AQUANT INTRODUCTION

WORLD-CLASS MANUFACTURERS

In a globalized world, it is important to choose the right supply chain partners. Aquant sources its extensive product range from 57 world-class OEM companies in China & Indonesia which manufacture products for leading bathroom brands in India and Europe. Each manufacturer is selected only after meticulous factory and product quality inspections.

10 YEAR WARRANTY

We at Aquant are confident that our sanitaryware will give you many years of trouble-free operation. However, for peace of mind, all our products are covered bythe following warranties:

- Vitreous China (Glossy White/Ivory Ceramic)	10 years
- Toilet Seat	02 years

ECONOMICAL PRICES

Aquant's products have the lowest price-tags compared to other brands in India. Aquant supplies products to leading showrooms across India without employing distributors; cutting middle-men leads to substantial cost-savings which are passed on to customers. Cost-savings are also gained through efficiently employing global lean management techniques & streamlined supply chains, which result in lower prices.

In 2006, Aquant started providing more than just basic sanitary ware and bathroom fixtures by actively seeking out exclusive and innovative products. The company's founders realized the need for exclusive, fashion forward products in the world of bath design. Thus began the progression of traveling the world to visit factories for the latest designs, quality materials and workmanship. Within a decade, the brand has expanded over 300 dealers with presence in 52 cities and towns across India.

STRINGENT QUALITY CONTROL

Aquant employs a large Quality Control (QC) team at manufacturing locations. Products must conform to strict quality standards. Every piece of Aquant Sanitary ware is inspected for pin-holes, micro-cracks & color consistency. Each Bathroom Fitting is tested under 0.75MPa air pressure and 1.6MPa water pressure to guarantee no leakage.

BEST QUALITY INTERNAL PARTS FROM EUROPE

Single-lever & Thermostatic cartridges along with Aerators form the heart of any faucet. Aquant sources these parts from the best manufacturers in Europe – Kerox of Hungary (Single-Lever Cartridge), Vernet of France (Thermostatic Cartridge) & Neopearl of Switzerland (Aerators). Each faucet handle passes the open-&-close test for 500,000 operations.

AWARD WINNING DESIGN

Many products in Aquant's portfolio are winners of prestigious international design awards such as Designpreis Deutschland, Red Dot & Red Star. The company is quick to identify market trends & believes in extensively collaborating with its international manufacturing partners to design and develop products which combine exquisite style with state-of-the-art technology, unparalleled performance & the highest quality.
