BATH FITTINGS
COLLECTION 2018-19

SHOWER CONCEPTS 2018/19

The Aquant shower collection offers you a wide variety of products that will allow you to enjoy pleasant moments thanks to the revitalizing energy of water. Our bath fittings and accessories suit every taste and transform the personality of your bathroom. For each situation, a specific product; whether you prefer a relaxing experience of the senses or a powerful shower that brings you vitality. Simply choose the products you need and become inspired with the meditative qualities of a gentle rain or a roaring waterfall. Reward yourself by creating a personal space that makes a clear and confident statement with a collection that exudes luxury, quality and design excellence.

AQUANT INTRODUCTION

WORLD-CLASS MANUFACTURERS

In a globalized world, it is important to choose the right supply chain partners. Aquant sources its extensive product range from 57 world-class OEM companies in China & Indonesia which manufacture products for leading bathroom brands in India and Europe. Each manufacturer is selected only after meticulous factory and product quality inspections.

10 YEAR WARRANTY

We at Aquant are confident that your shower system will give you many years of trouble free operation. However, for peace of mind, all our products are covered by the following comprehensive parts and labour warranties:

- Shower Systems	10 years
- Shower Panels	10 years
- Faucets	10 years
- LED Lights, Allied Bath Products	02 years
- SS/ABS Showers	02 years

ECONOMICAL PRICES

Aquant's products have the lowest price-tags compared to other brands in India. Aquant supplies products to leading showrooms across India without employing distributors; cutting middle-men leads to substantial cost-savings which are passed on to customers. Cost-savings are also gained through efficiently employing global lean management techniques & streamlined supply chains, which result in lower prices.

In 2006, Aquant started providing more than just basic sanitary ware and bathroom fixtures by actively seeking out exclusive and innovative products. The company's founders realized the need for exclusive, fashion forward products in the world of bath design. Thus began the progression of traveling the world to visit factories for the latest designs, quality materials and workmanship. Within a decade, the brand has expanded over 300 dealers with presence in 52 cities and towns across India.

STRINGENT QUALITY CONTROL

Aquant employs a large Quality Control (QC) team at manufacturing locations. Products must conform to strict quality standards. Every piece of Aquant Sanitary ware is inspected for pin-holes, micro-cracks & color consistency. Each Bathroom Fitting is tested under 0.75MPa air pressure and 1.6MPa water pressure to guarantee no leakage.

BEST QUALITY INTERNAL PARTS FROM EUROPE

Single-lever & Thermostatic cartridges along with Aerators form the heart of any faucet. Aquant sources these parts from the best manufacturers in Europe – Kerox of Hungary (Single-Lever Cartridge), Vernet of France (Thermostatic Cartridge) & Neop pearl of Switzerland (Aerators). Each faucet handle passes the open-&-close test for 500,000 operations.

AWARD WINNING DESIGN

Many products in Aquant's portfolio are winners of prestigious international design awards such as Designpreis Deutschland, Red Dot & Red Star. The company is quick to identify market trends & believes in extensively collaborating with its international manufacturing partners to design and develop products which combine exquisite style with state-of-the-art technology, unparalleled performance & the highest quality.

89 INSTALLATION GUIDELINES

FAUCET Series

There are numerous ways to approach designing your bathroom or powder room. Should you start with a style in mind or select your favorite products? Should you consider the wall color or the tile? Instead of fretting about what will work and what won't, we recommend you begin with a faucet finish you love from our STELLAR™ Collection and base everything in your room off of that combination for a truly personalized look!

Every faucet in the STELLAR™ Collection is coated using PVD (Physical Vapor Deposition), which is a state-of-the-art process that molecularly bonds the finish to the faucet, creating a super-hard surface that is by far the most durable available today.

KITCHEN FAUCET Series

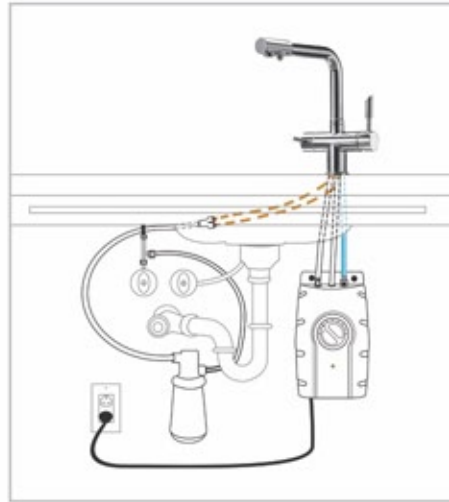

This sink mixer combines state of the art design and workmanship. The faucet has a unique 3 way inlet system; a separate line allows for your filtered water to be selected without interfering with the regular hot and cold water, giving you the choice between hot & cold water from your mains, and cold & ambient fresh filtered water from your filtration system (typically installed under your sink, thus saving space!).

This faucet will add elegance, functionality and performance to your kitchen.

HIGH FLOW MULTI FUNCTION DIVERTER Series

Multi-Function Diverters with 3/4" inlets provide a higher flow rate to meet the demand of several outlets. These diverters can deliver enough water to run a showerhead and six body jets at the same time at 5 bar pressure.

Powered by Aquant's latest 'Go-Click Select™' technology, our latest diverter (featured in the image above) allows you to experience a personalised and luxurious shower every day. You can now select your desired shower function simply with the push of a button.

High Flow Multi Function Go-Click Select™ Diverter

A simple click can independently control 3 functions such as Rain, Mist & Body Jets.

Due to the Vernet thermostatic cartridge imported from France, the temperature can be kept constant at 38°C with a tolerance of no more than 1°C.

SENSATION-Y Series

Flow Type : **Massage** | Item code : **5009**

Chromotherapy is a natural therapeutic process with ancient origins, which uses color to help the body and mind find natural balance. Enjoying a color shower is much more than cleansing the body; the colorful rays radiate you for a given time, fusing the benefits of water with the properties of light and color. In general warm colors such as yellow, orange and red are associated with energy, positivity, happiness whilst cool colors such as green, blue or purple inspire reflection, self-examination and calm.

SENSATION-Z Series

The shower interpreted by Aquant is a haven of pleasure because of the senses it transmits, both from a functional and aesthetic perspective. The technology applied to the shower presents showering with multiple functions such as Rain, Cascade, & Mist, thus enabling the product to meet what you need in every moment of the day – a quick morning shower, a relaxing evening shower, or an intense massage shower after a difficult day.

MULTIFUNCTION SHOWER Series

Experience the natural power of water. The smooth showerhead, mounted flanking the wall, really stands out in the bathroom. It creates a sense of a completely new shower, with freedom of movement because of the two types of water streams. The pleasure of fine rain, the energy of multi-jet flow or even the comfort of an alluvial cascade which drops out of the shower as an authentic waterfall.

WATERFALL SHOWER/SPOUT Series

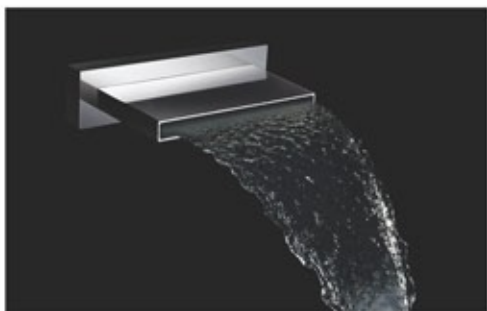

Flow Type : **Waterfall** | Item code : **1492**

Improve, renew, progress, reinvent and innovate. Aquant comprises of non-conformists. This is the spirit which brings us to design new bathroom spaces. Creative thinking for small private universes where you replenish your body and your spirit of the fast pace of life that surrounds us.

Aquant's waterfall showers create a shower experience similar to standing under a curved waterfall, allowing a wide stream of water to flow, warming and soothing the entire body for long-lasting relaxation – even after the shower.

RAIN SHOWER Series

The size of a showerhead is proportional to the pleasure experienced under the shower. The bigger the shower, the greater will be the rain shower experience. A more effective water distribution is achieved with equivalent water consumption, enveloping the entire body with water.

The variety of sizes grows up to an impressive shower of 500 mm, which lays the foundations of an entirely new product category.

Water + Air = Natural Rain

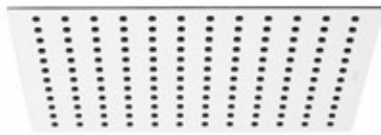

Natural rain was the mindset for the development of these innovative showers. Air is aspirated into the shower head and is mixed with water in a ratio of 3:1, to create a swirling effect. These air bubbles interrupt the solid water stream and generate millions of large water drops. You will experience the same effect of rain which is calming and revitalizing. The shower also provides water saving upto 35%.

SHOWER PANEL Series

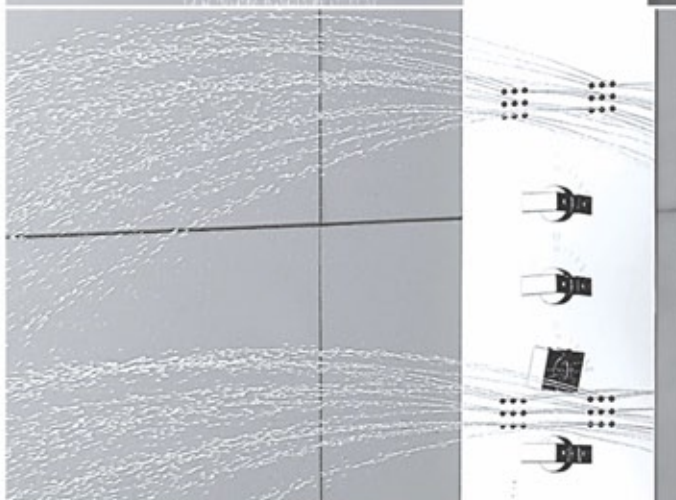

Fantastic advances in shower design and function provide the catalyst for our shower panels. Each shower panel has up to four functions: rain shower, waterfall shower, body jets and button-spout with hand shower. You may enjoy the pleasure of the combined use of two or more functions since all functions can be operated individually as well as simultaneously.

Musique is made of 304 grade stainless steel and has a mirror-like chrome finish. All functions can be operated individually as well as simultaneously. Musique is equipped with a built-in FM Radio, MP3 Player, USB port and LED light. The music as well as lighting can be controlled by a digital touch-screen panel.

Oculto represents the ultimate choice for pre-assembled, complete shower systems. A 304 stainless steel body with a mirror-like chrome finish makes it the centrepiece of your dream bathroom. The seamless fusion of elements simplifies your space without reducing your options. Oculto adds balance and a serene, spa-like escape to any home. All functions can be operated individually as well as simultaneously.

Our promise to you...

we at Aquant are confident that your shower system or shower panel will give you many years of trouble free operation. However, for peace of mind all our products are covered by the following comprehensive parts and labour warranties:

Shower Panels	10 Years
Multi-Function Showers	10 Years
Diverter	10 Years
Brass Faucets	10 Years
Brass Showers	10 Years
PVD Finishes	05 Years
LED Lights	02 Years
Bath Chairs	02 Years
SS/ABS Showers	02 Years
Other Allied Components	02 Years

In the unlikely event that you do have a problem with your shower, you can contact us anytime for assistance. We will talk you through any issues and if necessary arrange for an Aquant service technician to visit your home.

If you prefer you can email us at sales@aquantindia.com and remember, for advice and inspiration you can also visit our website - www.aquantindia.com
