INNOVATING

Bravat products carry the DNA of innovation and style.

Bravat's mission is to create bath spaces that inspire, indulge and invigorate your senses. Bath spaces are a reflection of one's taste and personality. Bespoke trendy bath spaces will charm you every day.

Live an inspired life through our creations and enjoy a pleasurable bathing experience.

Inspiration enriches life!

Bravat was born in 1873, in Black Forest Germany, a town which is home to some of the most Iconic German Technology Companies like: Porsche, Mercedes Benz, Bosch & Bravat.

Since then, Bravat has Grown continuously & has today become a manufacturing powerhouse and a World Leader in Affordable Bath Solutions.

**18 73**

1873, Mr. Roman Dietsche, founder established the company in Black Forest, Baden-Wuerttemberg, Germany, a region known for it's technical prowess and home to companies like Porsche, Mercedes Benz, Bosch and Bravat.

**19 08**

**Roman Dietsche  
Bürstenfabrik**

1908, with over 30 years workmanship experience and technology development, Dietsche Company transformed from a family workshop to a professional manufacturer during the 2<sup>nd</sup> Industrial Revolution.

**19 70**

1970s, our colourful bathroom products did extremely well in the European market and put us on the path to becoming a leader in the world plumbing industry.

**19 80**

**DIETSCHE**  **1873**

1980s, we expanded the product ranges to full range of metal bathroom products and accessories.

# Roots Of BRAVAT

## 19 50

1950s, Mr. Alfons Dietsche, son of Mr. Roman Dietsche led the brand to a new height and caused an innovation of materials in plumbing industry.

## 20 00

2000s, consolidation with the IDD Group. Dietsche's subbrands, Bravat, RD and Enzo Rodi integrate the German product culture with state of the art design and manufacturing to start a new phase of global development. Bravat becomes a full range Bath Products company, providing a full range of bath products from Faucets, Ceramics, Accessories, Bathtubs, Shower Enclosures, to Basins, Toilets and Bath Furniture.

## 20 08

2008, Bravat's 350,000m<sup>2</sup> new manufacturing base was established in Zhuhai.

## 20 10

2010, Bravat started the new brand strategy.

## 20 12

2012, Bravat Asian-Pacific Gallery opens in Zhuhai, which was the beginning of Bravat's global strategy.

**BRAVAT**  
BY DIETSCH  1873

## 20 13

2013, Bravat India Pvt Ltd started in collaboration with Bravat Global. Bravat India Experience Center launched in Gurgaon, Haryana.

## 20 16

Bravat continues to Grow Aggressively at a rate of 40% year on year.

# R & D Center

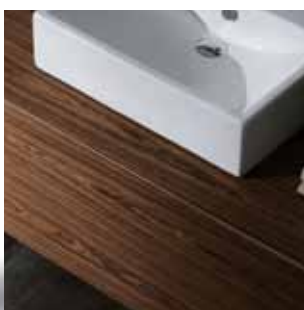

Bravat works with a team of acclaimed designers from across the world to bring a fresh fashionable flavour to it's products. Besides being beautiful designs, Bravat products are unmatched in performance, features and durability.

Bravat has won numerous design awards globally like the Red Dot Design Awards.

**Innovative  
Technology**

Bravat's International design and engineering team gathers various talents from around the world. Bravat gains from its group team of 14,000 people from different nationalities working across 21 facilities in 7 countries.

The most competitive advantage of the enterprises lies in its research, innovation, specialized production, supporting capacity, high quality, cost performance, product design and display capacity. It has set up 3 major R&D manufacturing bases in Germany, Europe and China, covering a total area of approx. 4,50,000 sq.m.

Thanks to the advanced production equipment, intelligent detection system and the most advanced and complete testing laboratories, Bravat product meets the national quality standards in Europe, U.S., the UK, and Australia.

BRAVAT uses the latest Technologies to produce World Class Bath Fittings and meet or exceed the most Stringent International Quality Standards.

## INNOVATIVE TECHNOLOGY

# Bravat India Management

Ms. Winnie Guo, Managing Director of Bravat (Asia-Pacific) GmbH

Being invited by German Dietsche Group as the Asia-Pacific Partner, Miss Winnie has successfully led Dietsche Group's high-end brand, Bravat to accomplish market expansion in China, Asia Pacific, Middle East, Latin America and other Region. Bravat achieves over 40% of market growth every year, becoming a well-known high-end brand in sanitary industry.

Mr Mano, CEO of Dietsche group

Mano has a long career history of achieving success within the building products industry.

He is a charismatic leader, with an enviable reputation for delivering business growth. He has accomplished this through his results orientated approach, expert knowledge within the sector, his innovative approach to product design and in depth understanding of manufacturing and marketing. Finally through his inspiring management style, and belief in people.

Mr Sandeep Vij, CEO of Bravat (India)

Sandeep comes with Indian and international leadership experience in fortune 500 companies, majority of which has been in the Building Products/Services domain. Over the years he has led start-ups, mature businesses and technology based businesses towards profitable growth. Sandeep aligns people, processes, execution and innovation to drive positive business outcomes.

## Bravat's Global Strategic Goal

## The Interlace

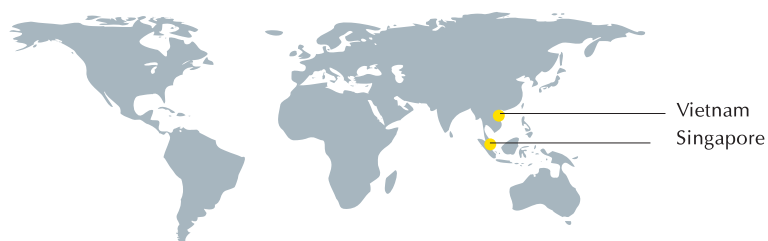

Singapore

The Interlace is one of the largest and most ambitious residential development projects in Singapore, representing a radical approach to housing and social living through the unveiling of a new urban typology within a lush, tropical environment.

## 02 Residential

### Ascentia Sky

Singapore

---

Inspired by sweeping views of vast greenery and blue skies, Ascentia Sky @ ALEXANDRA is at the fringe of good class bungalows in Tanglin, defining a new lifestyle for aspiring modern city dwellers. As a super high-rise building, Ascentia Sky will offer panoramic views of Bukit Timah Hill, Tanglin greens and the dazzling city skyline. Living and dining rooms open out to a lifestyle balcony, enhancing the sensory experience of an effortless flow between spaces.

### Dakota Residences

Singapore

---

Dakota Residences is perfect for your exemplary lifestyle. Breathtaking views and superb connections frame this undisturbed oasis, presenting you with the best of all words. Balancing convenience, exclusivity and luxury in a bold new fashion, Dakota Residences is your expression of sophistication and elegance.

## D'Leedon

Singapore

D'Leedon is designed by world-renowned architect Zaha Hadid. Seven towers making up the programme visually 'grow' from sunken private gardens within the site landscape. The lower floors kink in to highlight the point where buildings meet the ground, enabling a greater open area and the creation of private gardens, which are unique for developments of this scale and density.

## Indochina Plaza Hanoi

Hanoi, Vietnam

Indochina Plaza Hanoi is a fully integrated lifestyle community, connecting complementary residential, business and office buildings. With dynamic design, high-end facilities and good location, Indochina Plaza Hanoi provides a modern luxurious lifestyle and working environment on par with the highest international standards.

## 02 Residential

### Capitaland Huaxi

Beijing, China

---

Capitaland Huaxi is the deluxe apartment developed by Capitaland in Beijing in 2008, advocating "Superb Apartment, Top-class Quality" with refined decoration design. With stones and glass curtain wall, the façade presents a popular modernism style, chic and tasteful.

### Hairun International Apartment

Beijing, China

---

Hairun International Apartment is located at the core of the Lido business district featured with international and modern style. It is designed by American JDWA and completely equipped with Bravat products. The resident-friendly design perfectly combines the a wide range of house types from 70, to 350, into four buildings to suit different living demands.

### Kingvision Panyu Cedar

Guangzhou, China

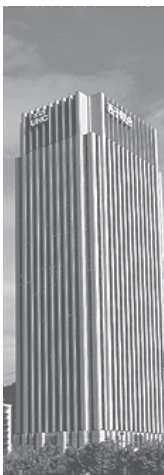

Located at the central axis of Guangzhou, Kingvision Panyu Cedar adheres to the philosophy of "Health, Joy and Efficiency" and strives to build the unparalleled green and cultural community in Shiqiaonan area with high greening rate and abundant scenery resources, setting a value model of regional residence.

### Shanghai Shimao Riviera Garden

Shanghai, China

As one of the iconic landmarks in Lujiazui CBD, Shanghai Shimao Riviera Garden is designed by British A+U Architecture Planning Company. To fully use the rare river scenery resources, all main construction units are ranked along the river and in an arc shape and well laid out to avoid blocking of sight, which enables every apartment to face the river and enjoy beautiful scenery. In 2001, Shanghai Shimao Riviera Garden set the Guinness World Records on the highest residence with a height of 167 meters.

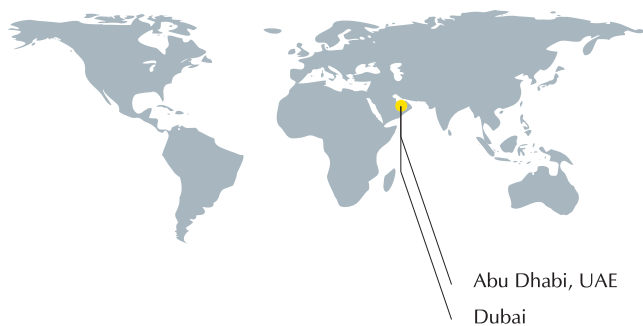

# Public Building

---

Over continuous innovative designs year by year, we can present environment-friendly, energy-saving and artistic products at a rather reasonable cost, which satisfies sustainable value and economical efficiency requirements of developers and designers.

It is our pleasure to participate in the public building projects—Bravat hope to share the philosophy “Inspiration Enriches Life” with more people.

### Shandong Grand Theater

Jinan, China

Shandong Grand Theater is designed by the famous French architect Paul Andreu with the design concept of “Green Mountain and Blue Sea”. The theater is a three-hemisphere-structure building symbolizes three beautiful and elegant springs, displaying the character of Spring City. It is composed of one 1,777-seat opera, one 1,476-seat concert and one 476-seat multi-functional hall.

### BFA International Conference Center in Boao

Boao, China

Located at the east tip of the water town of Boao, facing the stretch of the Wanquan River that merges with the Pacific, the BFA International Conference Center is the permanent venue of Boao Forum for Asia. This 37,000, Asian-style Conference Center boasts of a conference hall, So tel Hotel and municipal landscape.

Advanced  
Technologies

01

Featured with creative shapes full of inspiration and Bravat faucets and shower products ensure a refreshing and relaxing experience for both your body and mind throughout the day.

With the advanced technologies introduced below, Bravat products guarantee you a high-quality bathing experience.

## **A. High-performance Plating/ Multi-color Surface Treatment Technology**

- a .** With high performance plating, 200-hour salt spray test just leaves our products unscathed.
- b .** The exclusive PVD plating technology endows our products with different metallic colors, high abrasion resistance and great corrosion resistance.
- c .** The automatic powder spraying technology is able to meet the demands of abundant colors.

## **B. Lead-free Technology**

With the world's advanced lead-free technologies, the amount of lead precipitation of our faucets is less than 0.005mg/L, which is certified by NSF of the USA. Guarantee household water safety for you and your family is one of Bravat's missions.

## **C. Imported Equipment and Centennial Craftsmanship**

With the full set of international top-notch IMR gravity casting equipment imported from Italy, automatic CNC from U.S. HANS or Japan Brother, combined with Bravat's centennial casting technologies, the products can be made into various shapes, and become more durable.

## **D. Unique Features of Bravat Single Lever Bath Mixers**

- a .** High Flow Rate. Suitable for Rain Showers, Body Jets etc.
- b .** 3 Outlets Standard. Can run 3 Items from Single Bath Mixer i.e: Shower, Spout, Body Jets, Hand Shower etc. No need for button spout.
- c .** Temperature limit cartridge as a safety feature.

## **E. Unique Features of Single Lever Basin Mixer**

- a .** 2 Stage Water Saver Cartridge. Low Flow and High Flow to promote Water Saving.
- b .** Self Cleaning Aerator.
- c .** All series available in Standard Height, Tall body and Wall Mounted version.

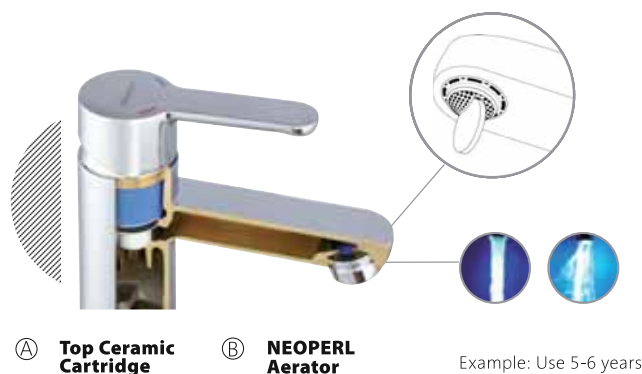

## **F. Unique Features of Wellness Bath Mixers**

- a .** Thermostatic Mixer.
- b .** High Flow Rate. Up to 53 liters/ minute, to ensure sufficient water flow for big Rain Showers, Waterfall, Body Jets etc.
- c .** 4 Outlets (can be operated at the same time).

## **G. Unique Features of the Oxyrain showers**

- a .** All Shower Heads with Air Water Mixing to simulate the Real Rain Effect.
- b .** Water Saving Technology. 30% lesser Water Consumption.
- c .** Ultra Thin Design.

## H. Imported Cartridges with Original Packaging

Bravat faucets are equipped with imported cartridges with original packaging, such as Kerox from Hungary, Fluesh from Germany, and Vernet from France. All the brand cartridges provide a ten-year warranty.

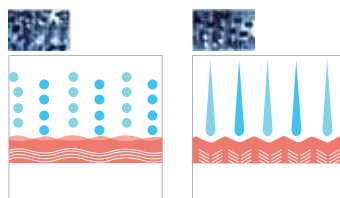

## I. Original Imported Swiss NEOPERL Aerator

- Softer water flow, effectively saving more than 30% of water.
- It is certified by NF and is in compliance with French, European, and international quality performance standards.
- Concealed coin-started aerator provides for easy maintenance, as well as nice appearance.
- Self-cleaning technology makes stain removing easy. It is easy to use and clean just with a finger touch.
- Adjustable aerator makes the flow angle wider and more flexible, thus meeting more demands.

## J. Air Mix Technology

With the Air Mix Technology, around 30% air is absorbed and mixed with water in the showerhead, turning the water flow into countless soft water drops, and making showering more comfortable, allowing you to fully enjoy the fun of rain-like shower.

+

# Master Steam

A steam bath is excellent for health and is very enjoyable as well. A steam bath is especially recommended to alleviate medical conditions like Bronchial Asthma, Bronchitis, Catarrh of the upper respiratory tract, coughs, hoarseness, non-acute rheumatic conditions by virtue of its high steam content and the general benefits of moist heat.

In addition, the steam bath is also known to have the following health benefits:

- Relieves stress, mental fatigue and tension.
- Revitalizes the body and mind, relieves allergies.
- Burns calories, aids weight loss conditions heart.
- Relieves nasal, sinus & chest congestion/ allergies.
- Induces a deeper more relaxing sleep.
- Deep cleans ridding your body of wastes.
- Impurities with in internal organs are flushed out
- Cleanses skin and aids in skin ailments such as acne eczema & other wounds
- Helps maintain clear, healthy skin and provides an afterglow of a rosy complexion

## Smart Control

- Power Control / Steam Control
- Temperature Controls / Timing Controls
- Display Temperature / Timer
- Built in Temperature Sensor
- Ergonomic Soft Touch Switch
- Low Voltage Control for Steam

## Aroma Steam

The Aroma Steam-steamhead allows for a quieter, calming steam bath. It includes a reservoir for eucalyptus or other scents for a unique aroma therapy experience. The unique design balances the distribution of steam and essence during steam bathing.

## Steam Bath

- Teflon Coated Heating Element : Long Lifespan
- Quick Steam : Steam within 2 minutes
- AutoDrain / AutoClean : For Clean Steam every time.
- Dry Run Protection.
- Overheat Protection. Auto Cutoff.
- Smart Control Compatible.
- Single Smart Control for Multi Steam (Upto 4 nos)
- Multi Smart Control for Single Steam.
- Temperature / Timer Control

# Master Steam Panel

Master Steam Panel is a simple yet functional & elegant device offering Steam, Chromotherapy & Bluetooth Music in one single device.

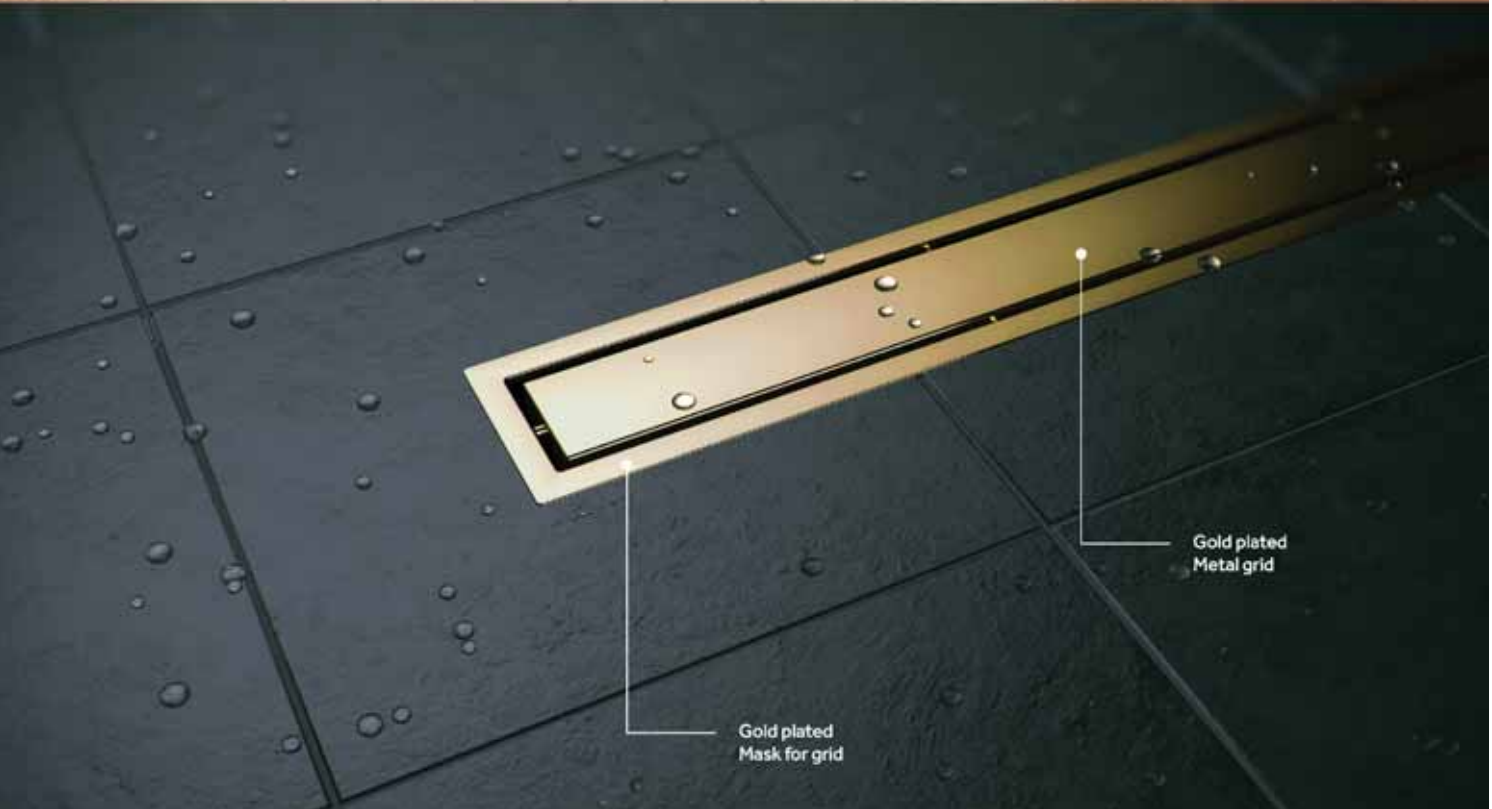

Easily convert any shower area into a luxurious **Spa@Home**.

## Features:

- Sleek Minimalist Design.
- Construction in Stainless Steel and White Lacquer Toughened Glass.
- QuickSteam with 4.5 kW Steam Engine.
- Temperature and Timer Control.
- RGB Chromotherapy Lamp.
- AutoDrain : For Clean Steam every time.
- Teflon Coated Heating Element : Long Lifespan
- Dry Run Protection.
- Overheat Protection. Auto Cutoff.
- Bluetooth Connectivity for Music / Phone.

# Drain / Smart Drain / Smart Drain +

## QUALITY AND FUNCTIONALITY

BRAVAT presents you SMART DRAIN with its sophisticated solutions that meet the needs of many designers and architects. New SMART DRAIN unites several modern solutions and represents a complete solution for water drainage in the modern bathroom. It is produced with one, two or three inputs and output with adjustable angle. Siphon design is created with high functionality, in order to prevent the entrance of sewer gases, even in cases when the water completely evaporates in the drain.

On the body of the drain it is possible to install carrier of waterproofing that provides assembly in a manner that completely prevents the entrance of water between the drain and the surrounding concrete. Height of a drain may be increased virtually unlimited by inserting a tube with a diameter of 110mm between the body of a drain and drain grid.

## FEATURES OF SMART DRAINS / SMART DRAIN + :

- Unique Drain Cover design provides flexibility for use as SS Finish / Glass Insert / Tile Insert
- Modern solution for modern methods of construction
- Easily adjustable installation height / adjustable angle of the pipes
- Up to three connectors for entrance of water into a drain
- Modern design that stops the gas from sewage even when water from the pipe evaporates
- Possibility of mounting a carrier of waterproofing
- The inner diameter of the drain corresponds to the pipe with a diameter of 110 mm so that pipe grid may be set away from the body of a drain
- The mechanism of the drain itself is thinner and takes up little space under the floor
- High flow
- Drain is modular - each element of the superstructure corresponds to each base, allowing easy adaptation to various needs of the specific project
- A simple model, with good features and safety systems
- Created from quality materials with a high level of system security

## ADVANTAGES IN THE DESIGN AND USAGE

SMART DRAIN is manufactured from high quality POLYPROPYLENE, material that is very suitable for high-quality drainage system, which has the following characteristics: high compressive strength, light weight, it is environmentally friendly, corrosion resistant, impact and heat resistant, easy to maintain, resistant to number of chemicals.

SMART DRAIN is designed carefully and with precision in order to improve the quality of all elements, extend the life of the product, ensure good flow capacity. For SMART DRAIN grounding is not necessary, because polypropylene does not conduct electricity.

The great advantage of the SMART DRAIN is the position of the connector for outflow that is positioned at the same height as the surface, which allows a complete cleaning of body of a drain from sediment. SMART DRAIN is characterized with easy installation and ability to upgrade after installation. A large number of extensions (plug-ins) allow the fulfillment of all requirements at the installation.

In order to ensure that every requirement of drainage is fulfilled, professional team of BRAVAT is always ready to respond to each specific request and thus create customized solutions.

# Experiencing 1250 °C

Experiencing 1250°C high temperature firing ,  
Bravat's ceramics present beautiful and creative  
appearance, thus improve the artistic characteristic  
of your home decoration.

high  
temperature  
firing

# Ceramics

ADVANCED TECHNOLOGY

Experiencing 1250°C high temperature firing, Bravat's ceramics present beautiful and creative appearance, improving the artistic characteristic of your home decoration.

With the following advanced technologies, Bravat products guarantee your high quality bathing experience.

## A. High Quality Ceramic Body & Easy Clean Glaze

- a. With professional coating technologies, a layer of exclusive transparent glaze is added on ceramic body. Through the firing process at the temperature of 1250°C, this extra coating closely attaches to the ground coat and enables the glaze to have fewer and thinner pinholes, which results in a particularly smooth surface coating. Laboratory inspection is taken regularly to ensure the production of Easy Clean Glaze consistently meets the highest possible standard of quality.
- b. Compared to regular ceramic glaze, the Easy Clean Glaze has a higher surface smoothness. This allows the ceramics to remain clean easily, and gives the bacterial a lower chance to stay on. In addition, with fewer and thinner pinholes, the ground coat closely attaches to the ceramic glaze. This fined and close-grained texture ensures no chance of leaking.

Why choose Bravat's  
Easy Clean Glaze?

## B. Advanced Flushing System

Bravat has optimized the flushing pipe, jet pipe and flushing hole opening of the toilets, so that siphoning can take place within 3 seconds. The pipes are enlarged up to more than 45mm, which exceeds the national standard of 41mm, allowing smoother sewage flushing, making your bathroom cleaner and more refreshing.

## C. Green Technology of Water Saving

The toilets presented by Bravat have met the Safe Water standards. Only 4L water for single flush, while 3L/4.5L for dual flush can ensure excellent flushing.

## D. One-piece Casting Technology

Bravat presents the true one-piece toilets without after-adhesive. The tank and bowl achieve perfect bonding without traces, which displays the advanced craftsmanship and quality from the details.

## E. Top Imported Valves

The products are supplied with flushing valves of the premium brands, Geberit from Swiss and Fluidmaster from USA, providing you with more than 200 thousand times quiet but powerful water flushing.

## F. UF Soft-close Seat & Cover with Quick Release Mechanism

- a. The selection of UF soft-close seat & cover enables smooth and silent closing, a high degree of hardness and good resistance of yellowing.
- b. Metal hinge and easy (dis)assembled structure are supplied for easier and durable usage.

# Smart Tank / Concealed Cistern

## Application

For front actuation  
Concealed installation

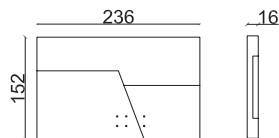

## Features

Slim Tank – 8cm Thick  
Adjustable flushing – 3/6L or 3/4.5L or 2/4L  
Soft Touch Operation  
Multiple Designs of Compatible Actuator Plates  
Quick Install for Actuator Plate & Internal Fittings. By Hand- No Special Tools Required.  
Easy Installation  
Good Low Pressure Performance. Can use under 0.1 Bar Pressure also.  
Poly foam Covering to prevent condensation on the Tank exterior  
Meet Stringent International Standards: NF, LGA, WAS, EN14124 etc.  
Can be modified to Pneumatic version with additional spare parts.

## Whirlpool

Most quality homes constructed today have a whirlpool-jetted (Jacuzzi) bath installed. Some families enjoy the jacuzzi spa as a place to gather and play. Others enjoy their spa as a place to relax and unwind. Jacuzzi spas have been proven to reduce stress, anxiety and tension.

A Jacuzzi bath is excellent for Hydromassage therapy. The specially designed Bravat Whirlpool pump mixes Air and water in the appropriate ratios and pumps the water with a lot of pressure through specially designed hydrotherapy jets that are installed in a bathtub. The resulting effect being, millions of pressurized water and Oxygen rich bubbles coming through each of jets providing a stimulating whirlpool massage. A jacuzzi bath is known to have the following health benefits:

- It stimulates the microcirculation in the veins and is advised in the condition of swelling of the lower limbs.
- It improves the blood flow and removes the toxins from the body.
- It relieves muscular tension and relieves pains in the joints.
- It improves the overall muscle tone of the body.

## Motor

The Bravat whirlpools are made of high temperature resistant polypropylene. They are thermally protected and do not get affected by the temperature of the water. The motor on reaching an ambient of 40°C automatically trips and restarts on cooling.

## BWPA-4 Heater

Single phase, inline heater with dry run protection (used for maintenance of temperature in massage bath while operation).

## Massage Jet

This is the original water massage technique. The water contained in the tub is sucked by a pump and forcibly reintroduced into the tub through special jets. These jets of water mixed with air are in a fixed position, but their direction can be changed by manually.

## Push Button with Turbulence Control

Non-electrical air-switch for the safe operation of the massage bath.

# Air Pool Jet

A sophisticated system that uses the effect of blown air, as in natural "geysers". Jets of air are emitted from a series of valves located at the bottom of the tub. This effect is obtained by means of a blower which generates hot air and helps to keep constant the temperature of the water in the tub. The gentle action of the bubbles envelops the whole body. The result is like fingers of water providing a gentle fullbody massage.

| Model | Features   |
|-------|--|
| BWP-1 | 1.0 HP pump, On/Off Pneumatic Switch, Turbulence Controller  |
| BWP-2 | 1.5 HP pump, On/Off Pneumatic Switch, Turbulence Controller  |
| BWP-3 | 1.0 HP hot air blower, Bubble Bath, On/Off Pneumatic Switch, Turbulence Controller, Non Return Value |

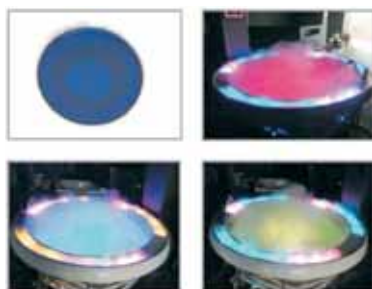

## Optional Accessories

1. BWPA 1 Bath Tub Waste
2. BWPA 2 Under Water Light
3. BWPA 3 Faucet Kit

BWPA 1 : Bath tub over flow and pop-up waste

BWPA 2 : Low voltage water proof light with chromatherapy.

WPA 3 : Bath tub filler kit comprising of waterfall filler, single lever mixer, diverter, massage hand shower.

# Master Steam

A steam bath is excellent for health and is very enjoyable as well. A steam bath is especially recommended to alleviate medical conditions like Bronchial Asthma, Bronchitis, Catarrh of the upper respiratory tract, coughs, hoarseness, non-acute rheumatic conditions by virtue of its high steam content and the general benefits of moist heat.

In addition, the steam bath is also known to have the following health benefits:

- Relieves stress, mental fatigue and tension.
- Revitalizes the body and mind, relieves allergies.
- Burns calories, aids weight loss conditions heart.
- Relieves nasal, sinus & chest congestion/ allergies.
- Induces a deeper more relaxing sleep.
- Deep cleans ridding your body of wastes.
- Impurities with in internal organs are flushed out
- Cleanses skin and aids in skin ailments such as acne eczema & other wounds
- Helps maintain clear, healthy skin and provides an afterglow of a rosy complexion

## Smart Control

- Power Control / Steam Control
- Temperature Controls / Timing Controls
- Display Temperature / Timer
- Built in Temperature Sensor
- Ergonomic Soft Touch Switch
- Low Voltage Control for Steam

## Aroma Steam

The Aroma Steam-steamhead allows for a quieter, calming steam bath. It includes a reservoir for eucalyptus or other scents for a unique aroma therapy experience. The unique design balances the distribution of steam and essence during steam bathing.

## Steam Bath

- Teflon Coated Heating Element : Long Lifespan
- Quick Steam : Steam within 2 minutes

## ADVANCED TECHNOLOGY

You will enjoy a clean, comfortable and stylish bathroom with Bravat bath furniture, which brings the artistry and practical function into full play.

With the following advanced technologies, Bravat products guarantee you with a wonderful bathing experience.

### A. Blum Hinge & Guide Rail

- a. Applying Austrian BLUM buffering hinge featured with 100,000 times continuous open-close without failure, providing you convenient use, long duration and flexible dismantlement.
- b. Adopting damping structure technique, Austrian BLUM guide rail enables slow closing of the drawer, excellent collision prevention and noise reduction.

### B. Quality Material

The use of multi-layer solid wood board with superior quality remains Bravat's bath furniture to be with high hardness, bearing capability, nice and durable.

### C. Eco-Friendly Paint

Eco-friendly paint is applied for protecting the health of you and your family. The exquisite treatment also ensures great tightness and waterproof performance.

# BLUM HINGE HIGH QUALITY

Environmentally friendly Paint

we adopt high-quality environmentally-friendly paint,  
which shows the exquisite paint treatment technic,  
high tightness and leakage prevention.

x 560 x 370mm

## Specification

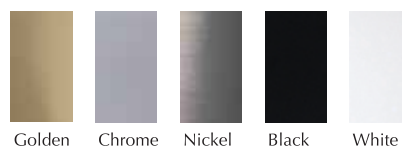

Technical drawing of the 2XG1/2 mounting bracket. The drawing includes a side view on the left and a front view on the right. Dimensions are as follows:

- Side view:
  - Top flange thickness: 26
  - Main body height: 409
- Front view:
  - Top flange width: 392
  - Mounting hole diameter:  $\varnothing 48$
  - Distance from top flange to mounting holes: 224
  - Distance from mounting holes to base: 264
  - Base width: 650
  - Base thickness: 2XG1/2
  - Mounting hole diameter:  $\varnothing 32-\varnothing 38$
  - Maximum height of mounting holes: Max55

The technical drawings show two views of the mounting hardware. The left view is a side profile of the mounting bracket, featuring a top plate with a central hole of diameter Ø38 and a width of 64. Below this is a smaller plate with a central hole of diameter Ø40. A cable is connected to the bottom of the bracket, with a length dimension of 125 indicated from the center of the Ø40 hole to the cable connector. A maximum height dimension of MAX 35 is shown from the top of the bracket to the center of the Ø40 hole. The right view shows a curved cable management piece with a radius of R165 and a total height of 110. It has a central hole of diameter Ø and a mounting hole of diameter Ø40. A vertical dimension of 500 is shown from the base of the cable to the center of the Ø40 hole.
