# CREATION

Colston has something new for bathrooms. With its RAIN SKY collection, it achieves the goal of offering innovative features that don't do the cutting-edge design.

The design and presentation of your bathroom is something that can bring you pleasure every day. It is not a place for compromise. Colston offers an inspiring breadth and depth of wellness and shower products.

Colston creates the showers that often exceed the imagination. These influences serve as inspiration for bringing performance, design, innovation and art to life.

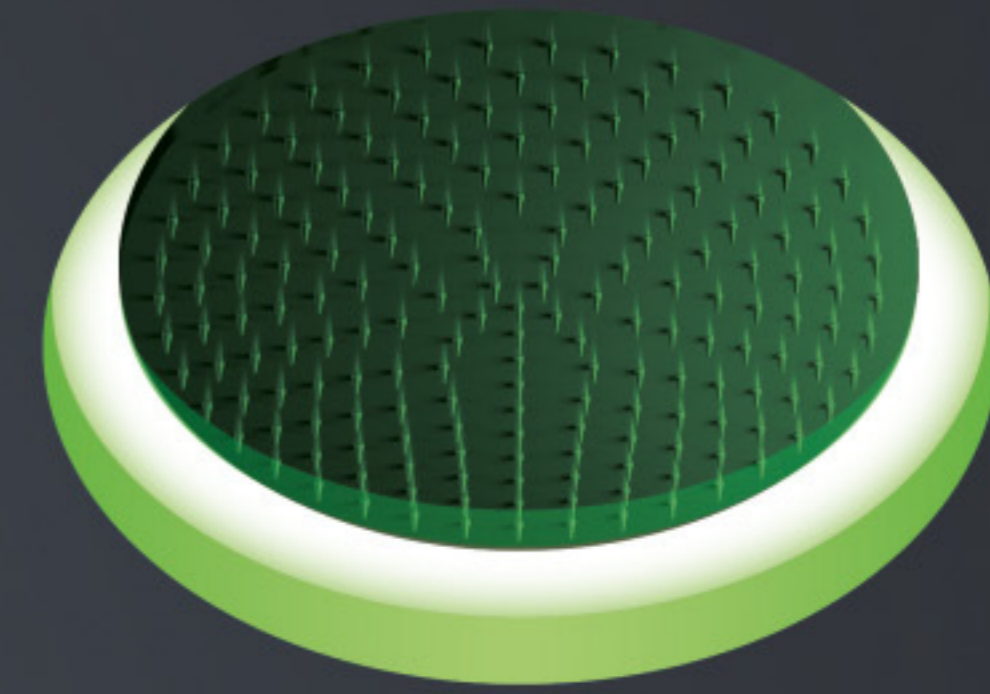

**Luxury of Nature in Your Personal Space**

# OPULENCE

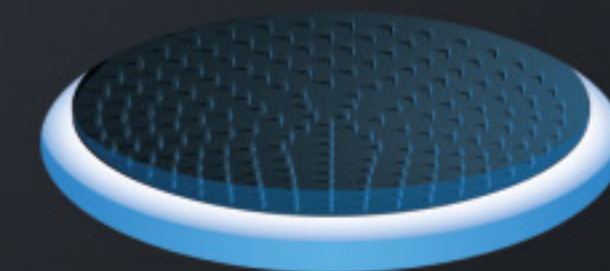

Place of profound intimacy par excellence , an act of love towards yourself, spirituality, care of your thoughts, purifications. In short: shower space.

The Rainy showers by Colston combines the complexity and importance of these aspects in the daily living, imagining the journey through places of living and of feeling. Colors, waterfalls, mist, column and notes that shift from the sense of welcome in a living room to the magnificence of the classic, and then linger to the force of nature, the sacredness of the place of an artist's expression.

# Color THERAPY

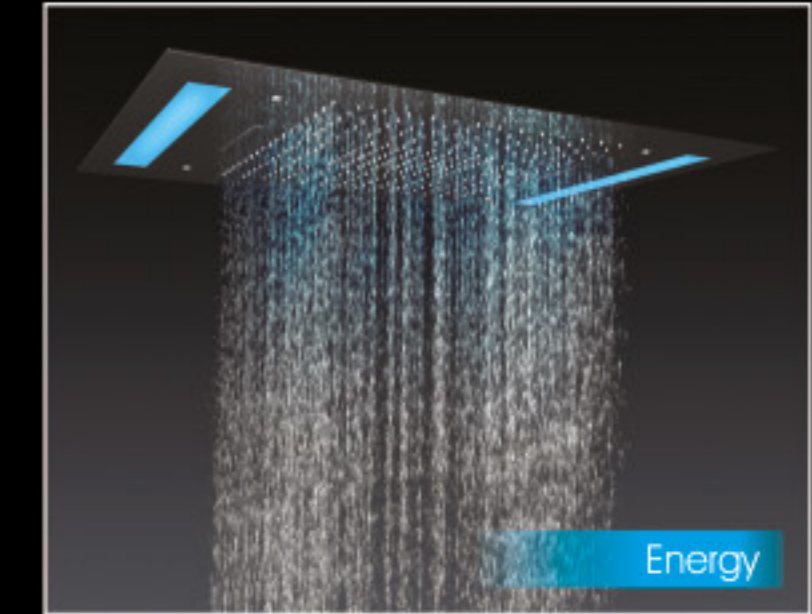

Chromotherapy is not only a beautiful play of light and colours. There are several studies certifying the functionality of chromotherapy and establishes emotional balance for dealing with everyday tasks. From the range of chromotherapy colour, so related to relaxation and tranquility, to the vital energy by warm chromotherapy, together with the effects of the different water functions, can lead to highly benefits for mind and body.

- White is pure and clarifying to the senses, as well as the mind.
- Yellow is hopeful and stimulating, especially for creative thinking.
- Turquoise is serene and stress reducing — think of the Mediterranean.
- Light red is bold, warming, energizing and courageous.
- Green brings harmony and balance to the spirit.

## MAXX TOUCH WATER CONTROL SYSTEM

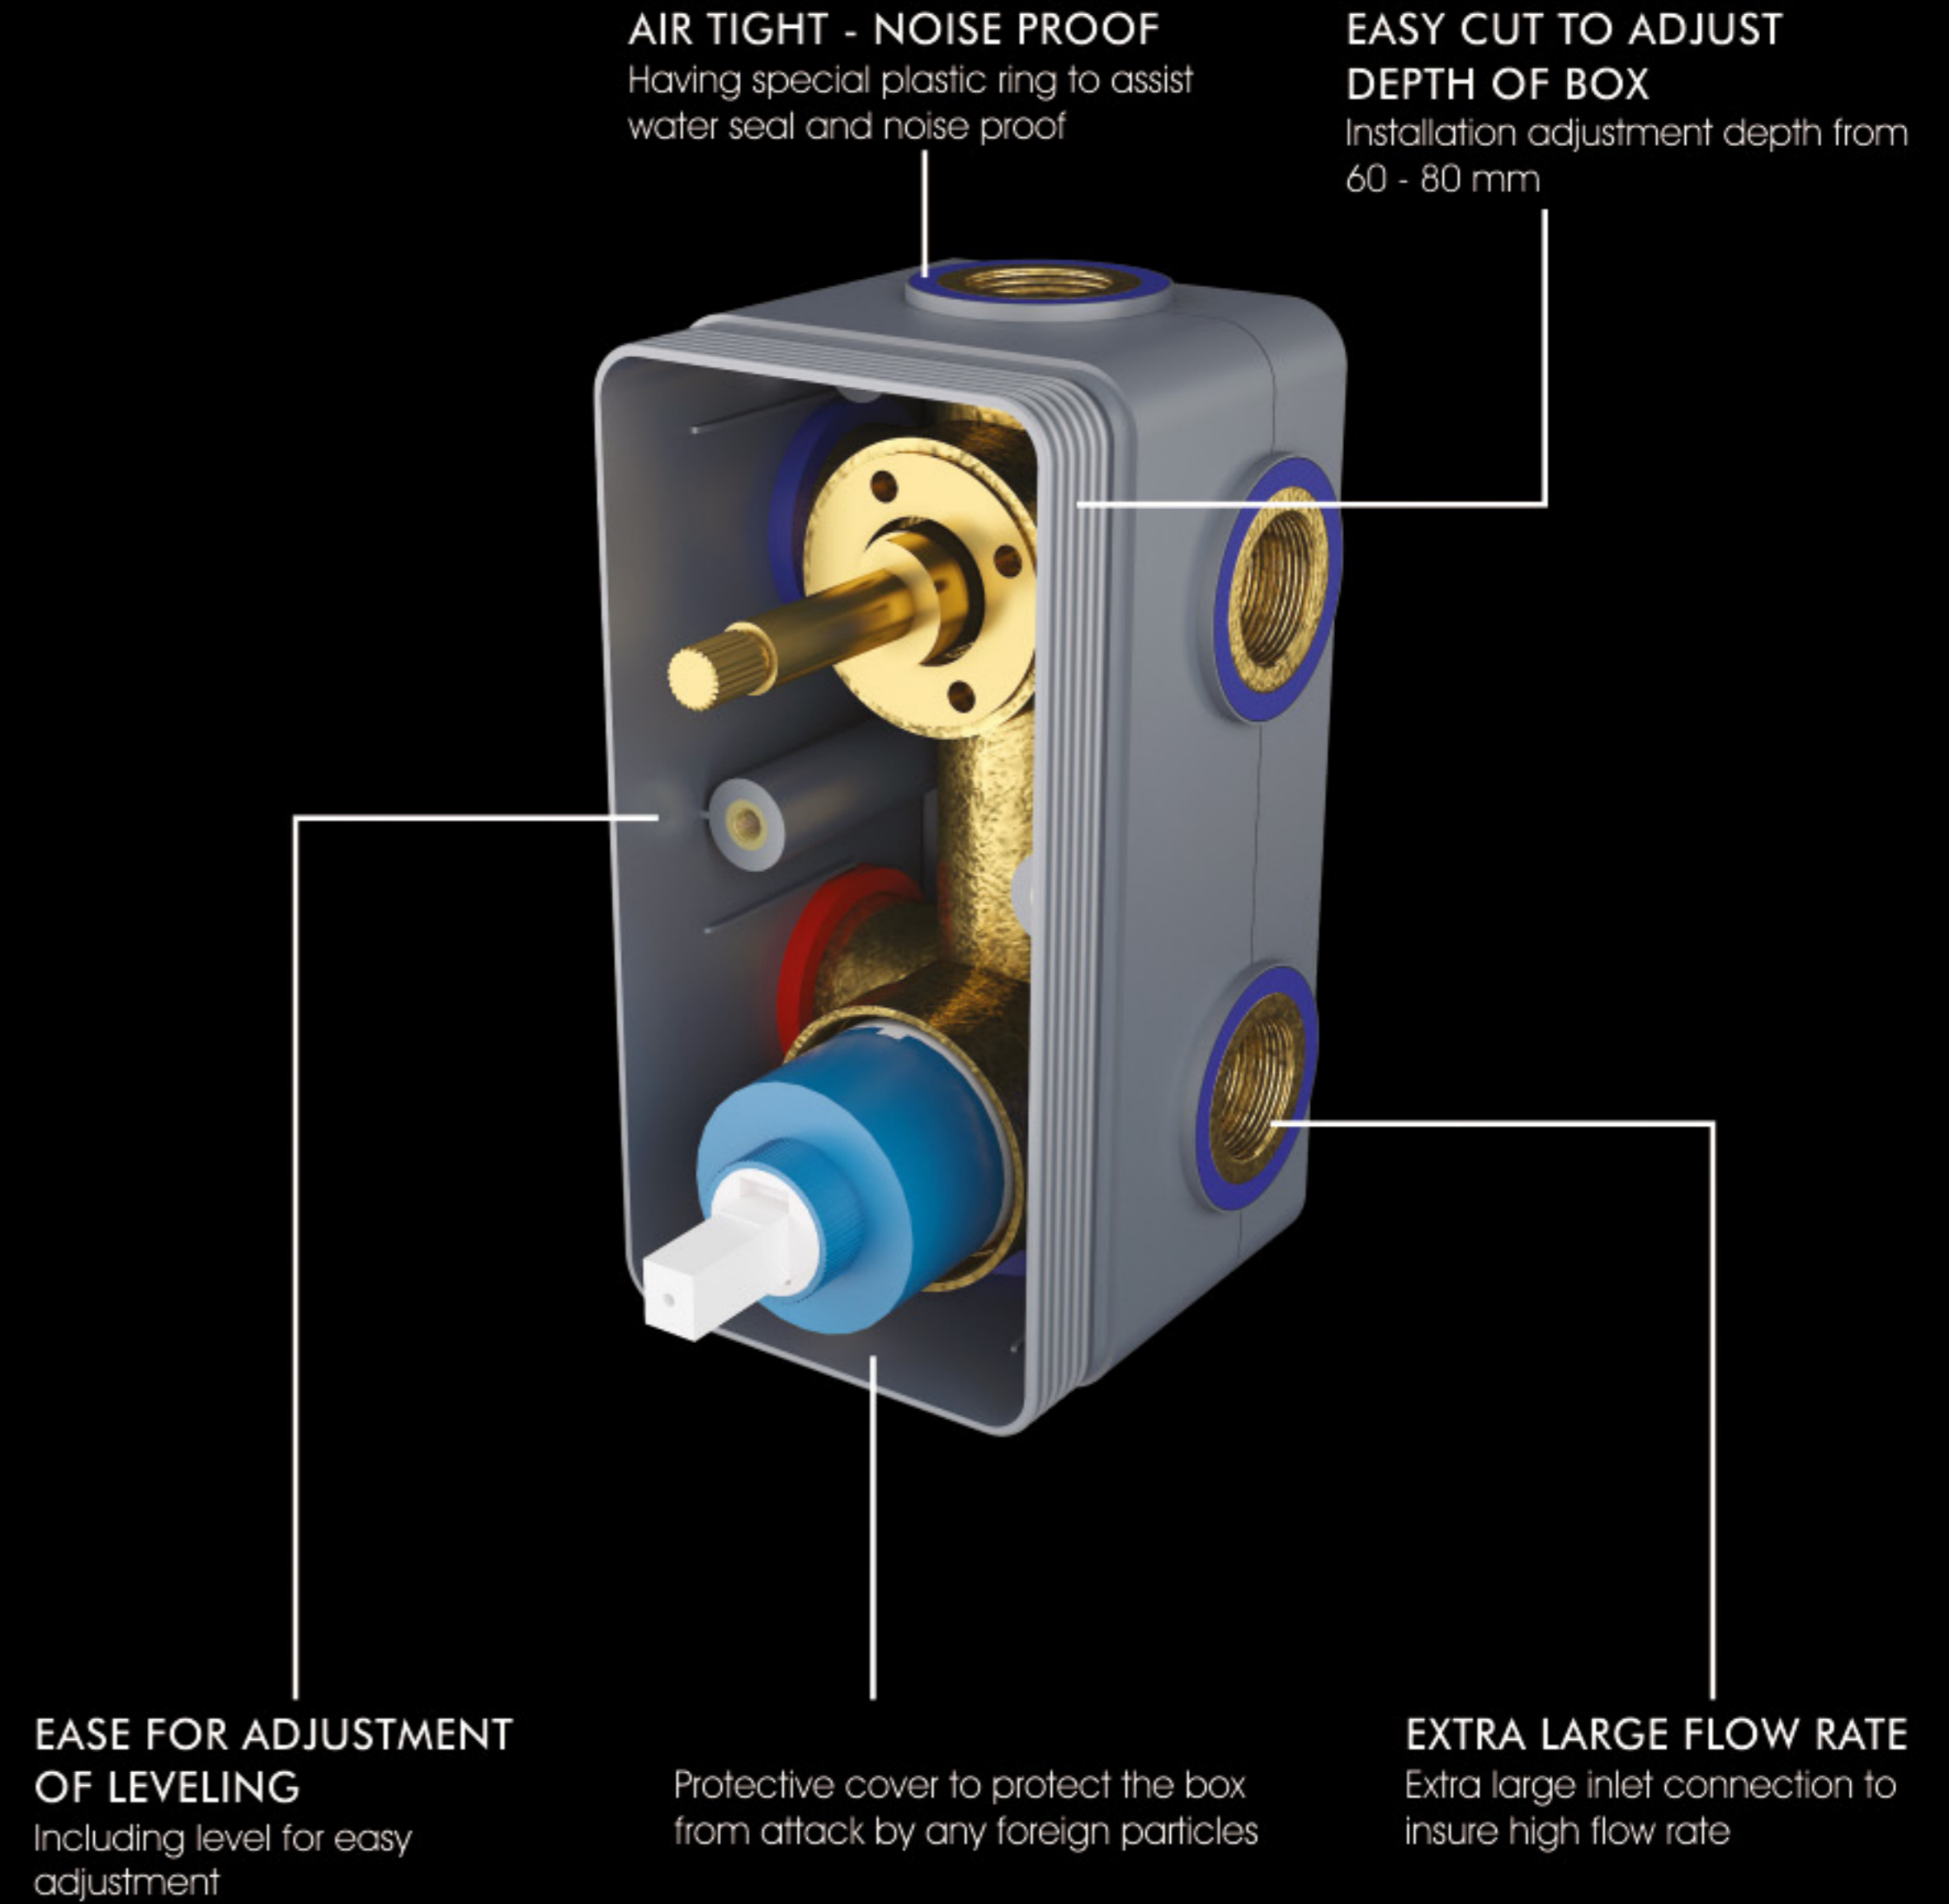

The brassware offers "more for less". One single gesture organises the complete geometry of the object and on a single object we manage to personalise the use of different brassware elements. Digital technology ensures functionality in the bathroom. Its intuitive icons allows an effortless operation. Now it is possible to create your personal spa experience in your own private space.

It controls **eight** major **bathing functions** and **ninth one** for the **chromotherapy**.

With the combine work of **Maxx touch control** and **Maxx thermostatic mixer**, you can fix a water temperature according to your body comfortability and requirement.
