Nexion interprets Marble

POMPEII COLLECTION

POMPEII collection conveys the richness of some of these precious marbles used since the Roman age to place the milestones along the most important ways of communication and elevates the status of prestigious patrician villas and mansions.

Nexion selected four among the finest marbles and created slabs in eye-catching color variations ranging from the classical beauty of white Italian lasa to the richness of beige Iranian onyx, to intense tones of grey pulpis and dark brown emperador. With great craftsmanship, Nexion has exalted these stones with two captivating surfaces: the contemporary lappato matt and the super-reflective full lappato.

The result is a collection that translates the timeless charm of some of the most precious marbles in a contemporary language, ideal for the most ambitious design projects. A collection that brings the best of the inspiring Italian design to any type of ambience and location.

Nexion installation suggestions

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications.

Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics.

It is not recommended to use grouting with coloured pigments in contrast with the colour of the tiles.
