Nexion interprets Luxury Marble

SIGNATURE COLLECTION

Signature collection is a tribute to marbles of rare beauty, quality that make them extremely sought-after: Rosso Levanto, named after the Ligurian city from which it originates and where, over the centuries, has been used to give life to many monuments and Irish Green, originally from Connemara, with whom were made jewels, sculptures and other prestigious artifacts found in ancient palaces, residences and important architectural complexes.

Thanks to its perfect mastery of craftsmanship and polishing techniques, Nexion has created captivating surfaces able to capture the chromatic perfection of these two materials: from blood red towards purple furrowed with thin white veins of Rosso Levanto, to the uneven green embellished with translucent white veins of Irish Green.

The result is a portfolio of an undisputed prestige enriched by the uniqueness of exotic marbles with contemporary design, making this collection an attractive alternative to the most demanding costumers. A collection that brings the best contemporary Italian design in every type of space and environment.

Nexion installation suggestions

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications.

Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics.

It is not recommended to use grouting with coloured pigments in contrast with the colour of the tiles.
